Hiring Manager

Visteon

Dear Hiring Manager,

I am excited to apply for the Generative AI Developer position at Visteon, where I can leverage my expertise in AI and machine learning to contribute to the automotive digital evolution. With a strong background in integrating AI and NLP features into CRM and CMS solutions, I am eager to bring innovative solutions to enhance Visteon's digital cockpits and safety systems.

My experience includes leading a team to develop scalable APIs and deploying AI-driven solutions that improved efficiency and user experience. For instance, I integrated Tesseract OCR and OpenAI in a Resort Agent App, reducing check-in times by 80%. Additionally, I developed an AI assistant using RAG and LangChain, improving query resolution accuracy. These projects demonstrate my ability to translate technical concepts into actionable solutions, aligning with Visteon's focus on innovation and customer satisfaction.

I am particularly drawn to Visteon's leadership in the automotive industry and its commitment to creating a more enjoyable and safe driving experience. I am excited about the opportunity to contribute to this mission and am confident that my technical skills, combined with my passion for AI innovation, will enable me to make a meaningful impact at Visteon.

I look forward to the possibility of discussing how my background and skills align with the goals of your team. Thank you for considering my application. I am eager to bring my expertise to Visteon and contribute to the future of automotive technology.

Sincerely,

Samuel Begin
